DIESEL

**HONDA**

# A CAR BUILT FOR DRIVERS

---

Completely re-designed and re-engineered, the new Civic Diesel range epitomises our innovative spirit and quest for technical excellence.

The result is a car created with a unique personality and sporty soul, it is exciting to drive, refined, comfortable and sophisticated.

Above all, it is built around one vital component: you.

# OUR NEW GENERATION OF ENGINES

---

The new Civic Diesel delivers an engaging driving experience with an ergonomic yet sporty driving position and a new dual pinion steering system, which gives you greater feedback and control. In order to have the power and economy to match its looks we have developed a turbo charged 1.6 litre i-DTEC engine, which delivers 120PS of power with fuel economy as low as 3.5l/100km<sup>†</sup> and CO<sub>2</sub> emissions of just 93g/km. It comes with a choice of a 6 speed manual or a 9 speed automatic\* and features our unique Earth Dreams Technology which offers the perfect balance of performance and efficiency.

\* Automatic transmission available later in 2018.

# HIGH QUALITY AND HI-TECH

---

We have packed the new Civic Diesel full of helpful technology to make every journey more enjoyable. Like our clever new 7" Honda CONNECT multi-use touchscreen, a wireless charger, dual-zone climate control, heated front and rear seats and a clever new electronic parking brake\*.

# ADVANCED SAFETY

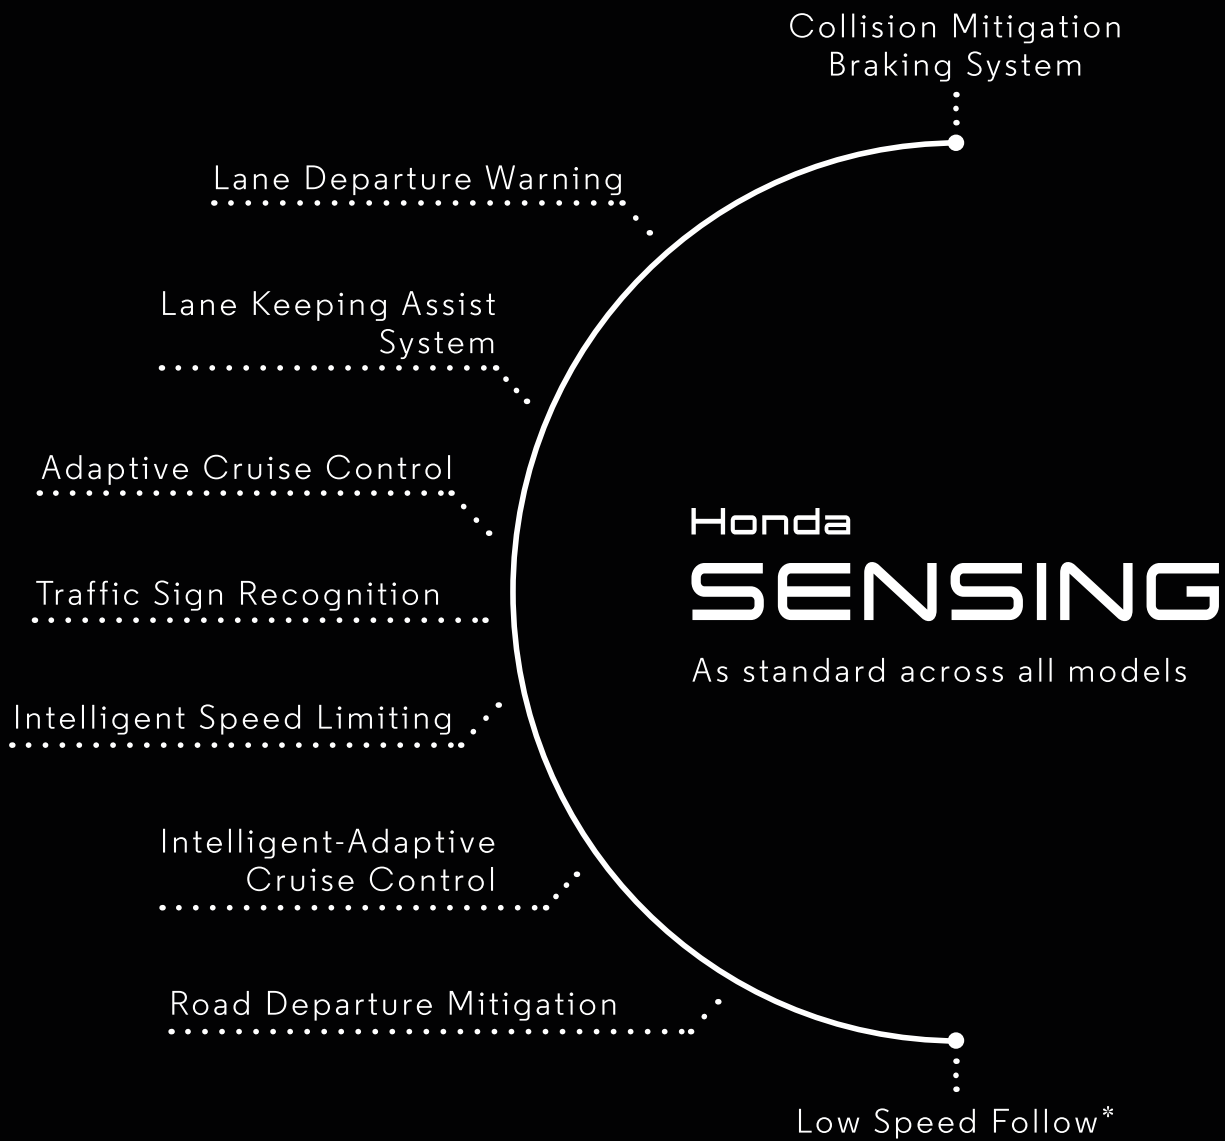

---

We are committed to keeping you safe, which is why a great deal of clever engineering is at work in the new Civic Diesel.

It comes with a suite of safety technologies called Honda SENSING, which includes features such as intelligent-Adaptive Cruise Control, Traffic Sign Recognition and a Collision Mitigation Braking System.

Along with our Agile Handling Assist System, that provides more predictable road behaviour and superior ride comfort, you can see how we are committed to keeping you and your passengers safe and sound.

# THE LATEST MEMBER OF THE FAMILY

---

The new diesel joins a Civic range that includes a choice of all-new turbo-charged petrol engines as well as the iconic new Type R. Each member of the family may have its own individual character, but they all share the same spirit of innovation and desire to make every drive a joy.
