

**Technology.**

The Ranger Raptor isn't just tough, it's also incredibly smart, with a host of standard features and Driver Assist Technologies (DATs) like SYNC® 3 voice activation system, Satellite Navigation, active and passive safety features like Electronic Stability Control (SC), Trailer Sway Control (TSC), Hill Start Assist (HSA), Hill Descent Control (HDC), Load Adaptive Control (LAC), Lane Departure Warning (LDW) with Lane Keep Assist (LKA) and Roll Over Mitigation (ROM).

**Chassis.**

The unique Ranger Raptor ladder frame chassis was reengineered and strengthened with High Strength Low Alloy (HSLA) steel to meet the tough demands that off-road performance driving commands. Tested extensively in the harshest desert environments in both Australia and the USA, the Ranger chassis delivers maximum toughness and high-spec performance.

**Engine and Powertrain.**

Much like a competition dirt bike, Ranger Raptor's powertrain was chosen to deliver high power and torque outputs with minimum weight. Ford's latest technology Bi Turbo diesel engine and first ever 10-Speed transmission combine to deliver excellent off-road performance while also ensuring the driver is in the right gear at the right time.

**Suspension.**

No other New Zealand production truck features the legendary Fox Racing Shox as standard equipment. With the learnings from Ford's F-150 Raptor, the Ranger Raptor's race-bred suspension has been specifically crafted to tackle the toughest terrains, smoothing out jumps, bumps and ruts.

# THIS IS NOT JUST ANOTHER TRUCK. THIS IS A SUPER TRUCK.

The Ford Ranger Raptor is New Zealand's first ever factory built, factory warranted, off road performance truck. The Ranger Raptor is an all out performance machine - it's been uniquely designed, engineered and brutally tested to deliver the most exhilarating driver experience ever imagined.

#### Design.

One look at the Ranger Raptor and you know this is no ordinary truck. From the unique front grille, front and rear bumpers, front bash plate, wider alloy wheels and off-road tyres, the Ranger Raptor is designed and engineered from the ground up to meet strict Ford Performance DNA requirements.

#### Terrain Management System.

Ranger Raptor's Terrain Management System (TMS) allows you to excel in a variety of terrains, not just the desert. With just the push of a button on the unique leather steering wheel, drivers can switch between six different modes: Normal, Sport, Grass/Gravel/Snow, Rock and last but definitely not least, the off road racing inspired Baja mode!
